

**MINDERSPEED - ECO**  
MXB SERIES PUMP

## Features & Advantages

- **Ultra Quiet Operation** - MINDERSPEED™ pumps are so quiet that you may not even notice it is running. It is rated at 40dB at 1 meter distance at low speed.
- **3 Speeds Interface Option** (Factory Pre-set)
- **Reliable** – Wet-end component is constructed from corrosion and UV resistant engineered plastic for long operation life. Built in over-heating and overloading protection.
- **Performance** – Unique AC bearing technology allows effective power delivery, resulting in optimum flow rate for quick water turnover.
- **Convenient** – Extra-large basket for long intervals between cleaning.
- **Optional Air wash for high efficient media backwashing** – Reduced Wastewater & energy saving up to 85%.
- All models come with 2" (Imperial) /63mm (Metric) angle adjustable union. (Traditional Union is available by request)
- Self-priming at 2m
- Enclosure Class is IP55 & Insulation Class is F

## Warranty

Pump	2 year
Mechanical seal & O-ring	1 year

**MINDERSPEED-ECO™** is a variable speed pump with inverter technology. It employs the latest AC bearing technology and equipped with energy saving motor and variable speed driver. MINDERSPEED™ ECO offers lower speed options for energy saving and in-turn reducing noise & vibration level.

### Interface of ECO-Minderspeed

MINDERSPEED-ECO™ has 3 speed options. High speed, Medium Speed and Low Speed. Pool doesn't need high speed flow all the time, high speed is mostly used for backwash or pool cleaning. During low or non-occupancy of pool, a low speed filtration is only needed which happens 90% of the pool life time. When the pool is heavily occupied with swimmers, the pump can be switched to medium speed. As a result, the pumps energy can be save up to 85%.

### INTRODUCING AIR WASH

MINDERSPEED-ECO™ enables Minder to introduce AIR WASH, a breakthrough technology that allow ultimate water saving for media filters. Minder's AIR WASH system saves up to 85% of water compares to traditional system. It is the world most affordable, reliable and effective water saving media filtration system.

Transparent Lid

Robust plastic body with angle adjustable union

Ultra quiet and high performance motor

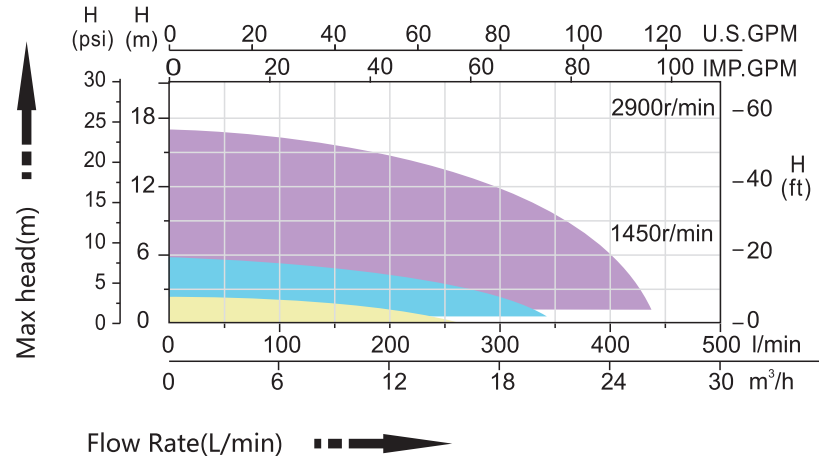

## Operating Limits

Model	
Maximum water temperature	50°C
Maximum Ambient Temperature	50°C
Noise at 1 meter	40 dB

## Application

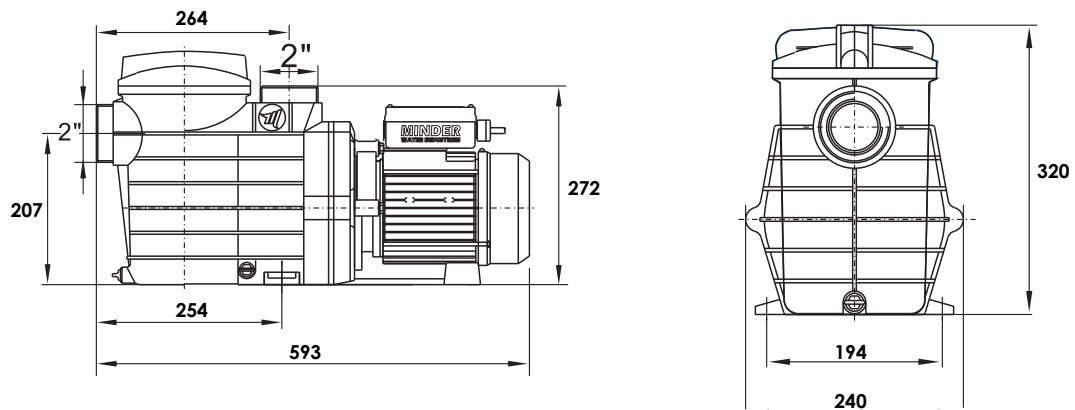

- Domestic pools
- Commercial pools
- Water features

## Technical Specification

Model	Union Connection Size		Voltage	Phase	Frequency	Amperage	Input Power	Output Power	RPM
	Imperial	Metric	V		Hz	A	kw	HP	
MXB150-E	2.0"	63mm	220 - 240	1	50 / 60	5.2	1.1	1.5	2850
